

Remember the names and remember the faces of

Your NC Representatives That Betrayed You

and voted for the Cap and Tax bill to raise the cost of everything you buy because they care more about their political agenda and special interests than they do about what's best for the citizens of North Carolina.

These six representatives for the state of North Carolina voted to raise the price of energy to the consumer and businesses.

Your household **energy bills will increase**. It will cost you more to turn on a light switch, cook for your family, heat your home and cool your home.

•
It will cost you **more to buy gas** so that you can drive your car to work to support your family

•
It will cost your employer more to run their business; consequently your employer will have to find ways to cut costs and that could mean that even **more NC jobs will be lost** in an already shaky economy.

•
All businesses need energy to produce their services and goods; the increased cost of energy will be transferred to the consumer (you) in the form of a **price increase for everything you need to buy**: food, clothing and shelter.

Remember their names and remember their faces so that you **know who to blame** when you find it increasingly harder to earn a decent living and take care of your family due to the **rising cost of everything**. And when the time comes,

Vote Them All Out of Office

so that we, the people of North Carolina, can have Representatives that are concerned first for the citizens of this state and not their political agendas and special interest groups.
